November 18, 2009

Dear Parents and Guardians,

In our efforts to ensure that Bonny Eagle High School is a safe and drug-free learning environment, the administrators and staff at Bonny Eagle conducted a modified lockdown and canine search this morning during Block 1. The search was coordinated with the Cumberland County Sheriff's department and its canine unit.

An announcement was made at 8 a.m. Teachers and students were informed that this was not an emergency lockdown. Students were instructed to remain in their classrooms with their teachers. Teachers were expected to continue with their instructional plans and activities.

The lockers in the building and the vehicles in the parking lot were scanned. They were searched only if flagged.

The BEHS administrative team is pleased to announce that the modified lockdown and search went smoothly and as planned. Students responded in an appropriate manner and continued with their academic programs.

If you have any questions or concerns, please contact me, or one of the other administrators. We will respond promptly to any questions you may have.

Again, I want to reassure you that today's actions were based on the premise that our school is a safe, secure, and respectful place for everyone. Thank you for your continued support.

Sincerely yours,

Beth Schultz, Principal
